Business Summary

Root's Incorporated (dba - Root's Floor Coatings) has specialized in resinous flooring since 1993. Located in Battle Ground, WA, Root's confidently stands behind their detailed planning, quality work and follow-up service.

Expertise

With more than 50 combined years in the industry, our proposals are built on proven success-based methodologies at competitive prices. Our goal is to help you maximize your investments and minimize your downtime and risks. We start by fully identifying the client's requests, and needs, regarding specifications of the floor. We strive to communicate the pros and cons of each alternative and provide suggestions to engineer each system to meet the requirements.

- **Kim Root, President**
Education: Bachelor of Arts in Business Administration, Washington State University
Experience: 25 years in the polymer flooring industry, 14 years in the transportation industry.
- **Jodi Root, CFO**
Education: Bachelor of Science, Accounting, University of Idaho
Experience: Auditing, Accounting, Tax, CPA inactive, Marketing, Bidding, Compliance, and Finance, 19 years in polymer flooring industry.
- **Tim, Project Supervisor**
Experience: 8 years in the polymer flooring industry, sales, maintenance, proven leader.
- **Tony, Senior Epoxy Technician**
Experience: 15 years polymer flooring technician.

Industries Served

- Animal/Pet Care
- Arenas and Stadiums
- Automotive
- Aviation/Aerospace
- Education
- Electronics
- Fire/Police/Rescue
- Food and Beverage
- Grocery-Retail
- Healthcare
- Industrial/Manufacturing
- Multi-Industry Applications
- Pharmaceutical
- Restaurant
- Retail
- Warehousing and Logistics

Capabilities

- Commercial and Industrial polymer flooring and lining systems including Epoxies, Urethanes, and Acrylics
- Specialties:
 - SDS (static dissipative systems)
 - Thin mil coating systems
 - Decorative broadcast systems (quartz and flake)
 - Slip resistant floors
 - Food Grade- Cementitious Urethane
 - Chemical resistant systems
- Self-leveling resurfacers
- Concrete restoration and repair
- Concrete polishing
- Slab stabilization
- Concrete floor preparation
 - Scarifying
 - Hepa-vac dustless systems
 - Tenting, air handler, ducting
 - Shot blasting
 - Diamond grinding
- Joint and crack fill and repair
- High performance wall systems
- Moisture mitigating systems
- Precision floor leveling
- Clean room floor preparation and resurfacing

Key Customers

- **Thermo Fisher Scientific**—2400 sq. feet of ISO 7 clean room, precision grinding and variance of 1.5mm per meter. Tenting, venting and application of ESD epoxy/polyurethane coating system during clean room operating hours.
- **Ajinomoto Frozen Foods**—20,000 sq. ft. removal of old epoxy flooring, trowel application of anti-microbial, thermal-shock-resistant, non-skid cementitious urethane seamless flooring system.
- **UPS- Training Center.** Shot-blast prep, application of epoxy base, pigmented polyurethane thin-mil coating system.
- **Bangor Missile Facility**—Prep and application of self-leveling epoxy floor system to super flat specifications, application ESD flooring system.
- **Intel**—Extensive ESD epoxy floor systems, vinyl ester trenching, novolac epoxy containment systems.
- **Boeing**—70,000 sq. ft. hangar floor resurface. Diamond-grind, epoxy base, polyurethane sealer.
- **Solar World Industries**—100,000 sq. ft. shot blast, application of Moisture-mitigating epoxy system, application of epoxy base system with polyurethane top coat.

Floor Prep Equipment

Root's Floor Coatings has invested extensively in specialized equipment that enables the job to be done safely, effectively, and efficiently. Regularly maintaining equipment along with the proper backup equipment to ensure on time performance. Root's fully understands a coating is only as good as the substrate it's adhered to therefore we conduct a forensic analysis on each floor prior to installation of coatings.

Specialized equipment: Shot blasters, Hepa filters, scarifiers (electric and propane), power trowels, Terrco diamond grinders, Sase planetary grinder, Tennant floor sweepers, Tennant scrubber, air scrubbers, Ruwac & Ermator Hepa dust collection systems for silica dust containment, self – contained generators, high quality flooring products (LEED certified products) Polyurea Pump.
